

Summary

AI and full-stack focused engineering student with hands-on experience in developing intelligent applications, including a BERT-based resume screening system and a hybrid movie recommendation platform. Combines machine learning, NLP, and web development to build scalable, user-centric solutions with real-world applications.

Skills

- Programming languages: C, C++, Java, Python
- Artificial Intelligence & Machine Learning: Machine Learning, NLP, TF-IDF, Cosine Similarity, Scikit-learn
- Web Technologies:HTML, CSS, JavaScript, Node.js, REST APIs
- Databases: SQL, MongoDB
- Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs)

Projects

AI Resume Screening System (BERT-Based)

- Built an AI-powered ATS using BERT and NLP for accurate resume-job matching.
- Implemented hybrid scoring and multi-resume ranking for comparative evaluation.
- Generated match scores, skill-gap insights, and candidate rankings for data-driven hiring decisions.
- Developed Streamlit UI and deployed on cloud.
- GitHub: <https://alkarani022005-del.github.io/AI-resume-screening/>

Netflix Movie Recommendation System(Netflix -AI)

- Built a hybrid recommendation engine using TF-IDF cosine similarity and generative AI for personalized suggestions.
- Delivered recommendations based on user mood, preferences, and content similarity.
- Integrated TMDB API for real-time movie data, ratings, and trailer playback.
- Implemented authentication, watchlist, and Netflix-like UI to simulate real-world platforms.

Khadi Bhandar Digitalization

- Developed a full-stack web application for product, order, and user management.
- Implemented role-based authentication (Admin, Employee, Customer).
- Designed MongoDB schemas and integrated RESTful backend APIs.
- Performed CRUD operations to ensure efficient data handling.
- Tech Stack: HTML, CSS, JavaScript, Node.js, MongoDB
- GitHub: <https://github.com/alkarani022005-del/Khadi-Bhandar-Digitilization>

Personal Portfolio Website

- Built a responsive portfolio website showcasing projects and technical skills.
- Designed clean UI/UX and deployed using GitHub Pages.
- Tech Stack: HTML, CSS, JavaScript
- GitHub: <https://alkarani022005-del.github.io/Portfolio/>

Certifications & Achievements

Web Development Internship (Participation & Interview) - See Caller
Participated in web development internship assessment and interview process via Unstop.

Flipkart Runway: Season 5 - Online Assessment
Participated in a national-level online assessment organized by Flipkart.

Technology Fellowship - Algo university

Solved 17 advanced graph algorithm problems in AlgoUniversity Graph Theory Programming Camp.

Workshops & Summits Attended

Attended AI Summit Delhi 2026 – sessions on LLMs, AI trends and ML ethics.
